The Deadly Disease From China Infecting My People Who Will Not Obey Me

“My son, it will come here. The mycoplasma will spread everywhere, infecting millions. The disease from China is My wrath. Millions will be affected—the genetically-engineered organism will spread like wildfire! Bred in a lab, let loose in China, millions will die there. It is My wrath, few will obey Me, most will not. My son, prepare, it caught the world off guard; they do not have the resources to deal with it; antibiotics cannot treat it, and it will spread like wildfire. Nothing can stop it but My power and grace. Millions will die, yea, tens of millions all around the world. The pandemic will be like the Black Death; nothing will stop it. Infecting the lungs, I will cause it to kill off My people—they will not obey Me. Preferring the world, the pandemic will kill off millions of My people who refuse to obey Me. Prepare! Nothing can stop it but My grace and power in your life. Your LORD has spoken.”
